

# Aberdeen Livestock

North

Start Here

**Agtegra**

- 1.) - Enter the farthest east entrance to the facility.
- 2.) - Trucks will line up, side by side, at the stop sign.
- 3.) - Please untarp your trailer
  - Trucks will stagger every other under the probe. Please be patient and take your turn.
  - If you have an RFID card for Aberdeen, it should be auto detected once you pull up to the probe.
  - Please make sure your RFID card is in a visible location in your window or on your visor for the scanner to read
  - If you do not have an RFID card, please use kiosk to communicate with the probe shack by pressing the intercom button.
  - Wait for the stop light and message board to indicate you can move forward to the scale.
  - If you have a trailer with a pup – wait for communication to move forward to have the pup probed.

## DIRECTIONS

- 4.) - Proceed to the inbound scale.
  - Pull up to the message board and monitor on the scale.
  - If needed, there is a kiosk for communication.
- 5.) - Once your weight has been captured, the message board will tell you to proceed to the grain dump pit.
  - Once inside the pit, you will open up the traps on your trailer and begin unloading.
  - Once you are done unloading, close your trailer hopper and proceed forward around the site.
- 6.) - You will then pull onto the outbound scale to the message board.
  - Your weight will be taken and a ticket will print on the ticket printer.
- 7.) - Exit by driving straight forward
