NOTE D: LONG-TERM DEBT (continued)

Notes Payable to Bank – In July 2001, the Cooperative entered into a loan agreement (“Original Loan Agreement”) with the Bank for the construction and permanent financing of the plant. Under the Original Loan Agreement, the maximum amount available was \$32,600,000. On September 20, 2004, the Cooperative entered a loan agreement (“New Loan Agreement”) based on the new borrowings put in place in July 2004.

Substantially all assets and contract rights of the Cooperative are pledged as security under both Loan Agreements. Both Loan Agreements and the related mortgage documents contain reporting requirements and restrictive loan covenants, which require maintenance of various financial ratios, minimum working capital (increased to \$3,500,000 under the New Loan Agreement) and allow distributions to members of up to 70% of annual net income without Bank approval. The Cooperative was not in compliance with the annual capital expenditure limit of \$500,000 for the year ended August 31, 2005. The Cooperative has obtained a waiver from the Bank on this matter.

In addition to regular principal and interest payments (as described below), the Cooperative is required to make an additional principal payment to the Bank of 15% of its “excess cash flow” on an annual basis. For the year ended August 31, 2005, the required “excess cash flow” payment of \$1,424,252 will be made on December 20, 2005.

NOTE E: GOODWILL INVESTED IN GLE

On July 27, 2004, GLE entered into an agreement with Glacial Lakes Capital, LLC (the minority interest in GLE) to repurchase all of its 3,000,000 shares of GLE. Under the agreement, which was effective as of May 31, 2004, GLE repurchased the shares for \$13,513,500. The minority interest did not receive a distribution for the period from September 1, 2003 to May 31, 2004. This transaction was financed through additional borrowings from the Bank.

For GLE financial reporting purposes, this transaction is being treated as a retirement of shares as there is no provision for treasury stock under South Dakota law for limited liability companies. The amount of the repurchase in excess of the initial purchase price received from the minority interest is treated as a reduction of retained earnings. For the Cooperative's financial reporting purposes, this excess is reflected through the consolidation process as goodwill invested in GLE. This consolidation goodwill is not subject to amortization and will only be adjusted if a permanent impairment of the investment in GLE occurs.

NOTE F: OTHER INVESTMENTS

The units were purchased in August 2005 and represent 50% of the outstanding units of Redfield as of November 30, 2005 and August 31, 2005.

Related to its investment in Redfield, the Cooperative entered into a Consulting and Management agreement with Redfield related to the construction and operations of the plant. Under the agreement (effective July 1, 2005), the Cooperative will manage the construction of the plant, will manage the day-to-day operations of the plant for Redfield and will be paid (1) a monthly fee of \$35,000 and (2) an annual fee of 3% of net income of Redfield.
